Croatian Companies Profiles

Intro

The Croatian Chamber of Economy is organizing a company mission to The International Exhibition of Economic and Scientific Innovations, INTARG, at the International Conference Centre, Katowice on June 20th until 21st, where Croatian companies will be keen to meet with Poland companies for potential collaborations.

This brochure is addressed to Poland based companies that would like to schedule appointments with the Croatian companies, to explore a future cooperation.

If there are any companies in this brochure that you would like to arrange a meeting with, please send an expression of interest to our contacts and we will arrange a time for the meeting. The Croatian companies will be available between the 20th and 21st of June for meetings. All meetings must be booked by the 19th June 2018.

We look forward to meeting and doing business with potential clients and partners in the Poland.

Please express your interest by contacting the following person:

Gojko Jelavić, Head of Entrepreneurship and Innovation Division

MINING BULLDOZER - MVD-XLPD

The MVD Extra Low Profile (XLP) Dozer is designed as a very low profile, remote-controlled machine for multiple uses such as underground mining, construction, military and defence missions. Low profile and remote control makes it suitable for multi purpose tasks and missions.

The MVD is equipped with a blade for digging and pushing the blasted ore in front of the machine. During operation, the MVD is capable of handling 50 to 120 tons of ore per hour. The machine is designed to work continuously with minimal maintenance and downtime. Maintenance and repairs can be carried out in the field or in certified service centers, and the tools required are standard wrenches and some specially modified tools.

The major components not produced by DOK-ING such as motor and hydraulics are provided by large, international companies thus ensuring long-term availability of spare parts. The in-house service capabilities allows DOK-ING to send maintenance team at short notice to any location in the world.

BUSINESS INTEREST:

- mines, construction companies

Purpose:

mining and construction

Advantages:

- Extra low profile remote controlled system
- Standard operating tool: blade tool attachment
- Operated by a single operator using a remote control unit
- Excellent efficiency and productivity
- Capability of handling 50 to 120 tons of ore per hour

Capable of operating on inclines up to 30 degrees

Automatic train protection system AP AUTOSTOP

Description:

AP AUTOSTOP is a turnkey safety system for railway vehicles based on INDUSI technology which stops the train in emergency situations. Emergency situation can occur when the train passes through the stop signal, the train driver is distracted, the train overspeeds...

Advantages:

Innovation advantages are as follows:

- Full computer diagnostics
- Complete set of testing devices
- Event recording which enables more precise maintenance and evaluation of incident states in an accident
- Train driver registration
- Integrated dead man's system
- GPS positioning and communication which serves the purpose of remote diagnostics

Intended use:

By implementing AP AUTOSTOP system, the railway significantly increases its safety level. AUTOSTOP system, based on INDUSI technology, is a high tech product which warns the train driver and automatically stops the train depending on the information it gathered while passing by the signals on the railway and the information based on the train driver behaviour. The system is resistant to all sorts of vibrations, shocks and impacts which occur during exploitation on the railway vehicle and represents a turnkey safety solution for railway vehicles of a country. It is easily adaptable for communication to other safety systems and European standard for control/command and communication systems of ETCS level.

BUSINESS INTEREST:

railways in Poland

HYALURON+VITAMINS INTENSIVE REVITALIZING LINE

Innovation is based on natural ingredients and ecological cosmetics standards, environmental protection, efficient use of energy and production. Protects skin cell proteins with purified plant complexes. Improves microcirculation and skin immunity. Hydroxyl is a donor and free radical cleanser that prevents skin protein peroxidation. In a very short time, it rejuvenates the hydro-lipid barrier, the physiological functions of cells and the overall skin condition. Intense anti-aging skin formula, which has a high bioavailability. The synergistic action of vitamins, herbal complexes, and hyalurons for radiant and balanced skin, reduced wrinkles and hydrated skin.

Advantages:

1. PHOTOPROTECTION
2. COLLAGEN SYNTHESIS
3. DEEP HYDRATATION
4. RESTORATION OF THE HIDRO-LIPID BARRIER OF STRATUM CORNEUM

Purpose:

Skin care

BUSINESS INTEREST:

Dealership with pharmacies, specialized stores, shops with natural products.

C COLLAGEN CREAM

C-VITAMIN + HYALURON

SKIN MATRIX REPAIR

This innovative product stimulates cell density and as a growth factor-like activity process repairs the skin matrix. Two major extracellular matrix molecules are **collagen** and **elastin**, also product reverses aging processes and gives natural moisturizing effect. **Natural oils** – Rose-Hip, Crambe, Carrot and Raspberry rich with A, B, C, E and K vitamines achieves such an effect, along with stable **vitamin C** derivate, **Hyaluronic Acid**, Crocus Chrystansus Bulb extract, Tangerine and **Croatian mineral water**.

Advantages:

- **skin matrix repair**
- natural stimulation of collagen and elastin
- improves hydration and moisture in deeper layers of the skin
- anti-aging and antioxidative effect
- protects from sun damage -natural UV protection reduces skin decoloration and inflammation

Usage :

Hydro natural organic cream for sensitive and normal skin with high concentration of vitamin C and Hyaluronic Acid. After usage the skin is moisturized, soft, toned, radiant and pores are tightened.

BUSINESS INTEREST:

Dealership with pharmacies, specialized stores, shops with natural products.

PROTECTION FOR GAS METER

PROTECTIVE RING FOR GAS METER NUT

Protection ring for gas meter nut is designed in two parts. The protective ring serves to identify illegal and unauthorized activity on the gas meter nut, and also on the gas meter itself. Once removed protective ring can not be connected and mounted on the gas meter nut again. The protective ring serves to protect the gas meter against unauthorized actions.

SAFETY SEAL FOR GAS METERS

Safety seal for the gas meter is protective and identification element to control misuse of the wanted subject, like the gas meter. The seal is designed as one unit consisting of three inseparable parts: the body, insert and strip connection. Seal is the safety element of protection which is impossible to open without breaking it or leaving visible damage. Removed seal cannot be mounted on the gas meter again without visual mark that it has already been removed before.

Advantages:

Safety elements for protection which are impossible to open without breaking them or leaving visible damage. Removed safety elements cannot be mounted on the gas meter again without visual mark that it has already been removed before.

Purpose:

safety elements for gas meter protection

BUSINESS INTEREST:

gas distributors and gas meter manufacturers products.

SecuBot

A compact, all-in-one home security solution, SecuBot is the pocket-size, battery-operated, low-power security device engineered to keep you protected no matter what happens.

The way it works is simple: there is a motion sensor on SecuBot, and using a SIM card, the device communicates via mobile networks, alerting you anytime someone comes with a 12-meter range of the motion sensor.

Advantages:

SecuBot is most notable perhaps due to its pocket size and extremely low amount of power it needs to run: over the course of a year, it consumes in average just 0.1uW, so you can charge it once, set it up, and let it do its job.

Purpose:

At home, in your office, around your garage, throughout your cottage, even in cars, trucks, or boats, SecuBot keeps you secure. You can relax with confidence in the knowledge that your property and your belongings are protected and never truly left alone!

BUSINESS INTEREST:

Companies involved in the sale of electronic systems for the protection of houses and flats.
